

Clients Technical Training @ JEC

Last April 30, 2009 JEC Philippines sponsored a Technical Training for Chilled Water System to JEC clients. The training was held at JEC Training office in Makati City.

JEC presented the “Chilled Water System” and explained the significance of proper operations of Chiller System in order to reduce cost and maximize energy efficiency. Over 30 participants participated from different companies like, Asian Development Bank, Coca-cola Bottlers, On Semicon, Unilab, Universal Robina Corp (URC) and Kraft Foods Phils. Attendees are mostly Head of Engineering Department and Procurement. Noel Cabayao Engineering Officer of Unilab says” the training gave us helpful tips in a day-to-day operation and approach of in conserving energy”.

The technical training objective is to continuously develop deeper relationship and trust with the existing and prospective clients in different sectors of the industry.
