

## 5- Year Service Anniversary at URC Rosario

Last August 19, 2008, JEC Philippines celebrated its 5 years of service with Universal Robina Corporation (URC Rosario), one of the leading food manufacturing companies in the Philippines. Our service with URC is under Operation & Maintenance contract since August 2003.

To make the celebration memorable, the staff contributed money and bought food which they enjoyed and shared with everyone. Among their guests were Mr. Edgar Dayawon, URC Operations Manager and Mr. Oscar Lopez, URC Maintenance Manager. It was indeed a simple, memorable celebration where URC management team expressed their gratitude to JEC Philippines and its site staff for constantly giving quality service.

Congratulations to our URC Rosario group headed by Foreman, Noel Salvador together with the 22 staff, for continuously maintaining quality service and fulfilling JEC commitment to our clients in delivering world-class engineering solutions and making JEC the Partner of Choice.
